

# Antwerpen

Factsheet

## Characteristics

- Age: 8+
- Duration: 60 minutes
- No. of players: 2 – 4

**Antwerpen** is the second dynamic harbour game in the PORTS OF EUROPE series after the success of the first game Rotterdam. The dynamic game flow, accessible rules and the unique theme have a strong appeal to the mass market. Antwerpen comes in a multilingual version!

## Experience the dynamics of the Port of Antwerp!

Belgians are known around the world as bon viveurs, thanks to the delicious products of their country. The best chocolate, trappist beer and, of course, real Flemish chips. But you can't make pralines without cocoa, or chips without potatoes!

## Navigate your ships and control the locks

Ships loaded with goods for Antwerp make their way through the busy channels in the River Schelde. The mighty container ships moor in the Deurganck Dock. Other ships navigate through the locks to the Albert Dock. But are the locks opened in time, and do the goods reach the right dock? Using an innovative and dynamic play system, players navigate the ships and operate the locks. The competition in the busy shipping lanes is fierce. Which captain will navigate his ships safely through the network of locks.

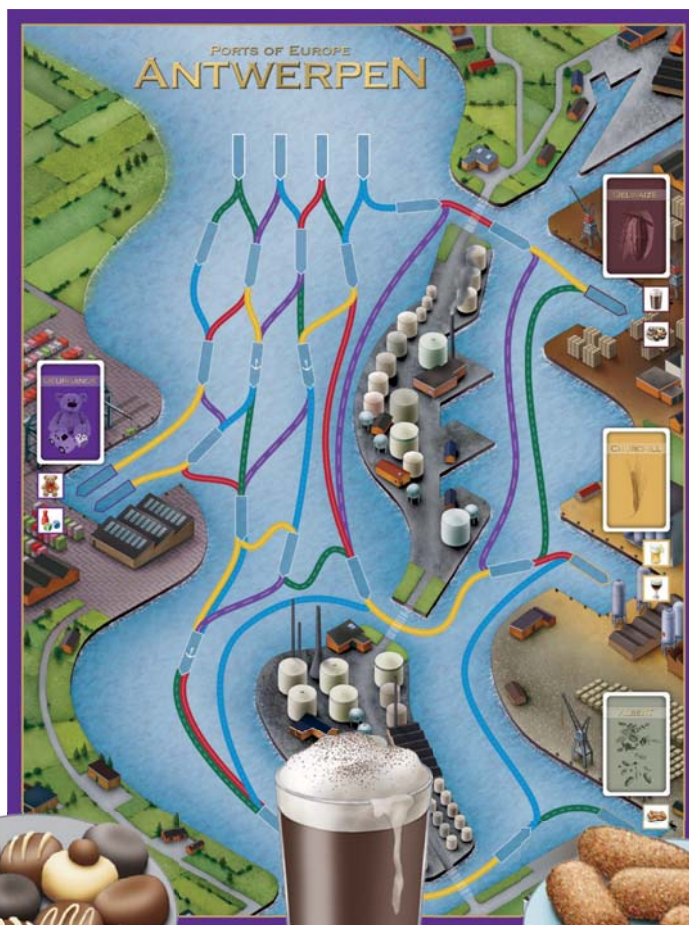

Antwerpen is a family game with a suggested retail price of € 29,95 / \$ 39,95.

The game is available in a multi lingual version including English, French, German and Flemish.

## Distribution and sales
